PROFILE

UI/UX designer with end-to-end product experience — from designing and shipping a live maternity health app (Aama Cure, Android & iOS) to delivering international-grade web banners on Upwork. Skilled in Figma and Adobe Photoshop, with working knowledge of HTML/CSS/JS. Experienced across the full design cycle: research, wireframing, hi-fi prototyping, usability testing, developer handoff, and implementation review. Complements design work with active involvement in AIESEC, developing cross-cultural communication, teamwork, and leadership.

PROFESSIONAL EXPERIENCE

UI/UX Designer | Neptune TechZone Pvt. Ltd. — Aama Cure

Jan 2026 – Present · Kathmandu, Nepal

- Designed the complete UI for Aama Cure (live on Google Play & App Store) — a maternity care platform covering fertility, pregnancy tracking, vaccinations, counselling, and postpartum screens.
- Owned the full design process: user research, wireframes, hi-fi prototypes, usability testing, developer handoff, and implementation review.
- Contributed to aamacure.com website design, maintaining visual and UX consistency with the mobile app.
- Participated in cross-functional team meetings to align design decisions with product goals.

UI/UX & Graphic Designer (Freelance) | Upwork — webapex.com.au (Australia)

Aug 2026 – Present
